Sen. Long to Ask Airing

By Richard Harwood: 1713/66 Washington Post Staff Writer

Sen. Edward V. Long (D-Mo.) announced yesterday that he would ask FBI Director J. Edgar Hoover and Senator Robert F. Kennedy to testify publicly on their controversy over the FBI's eavesdropping practices.

"Now that the ice is broken," Long said, "the public certainly has a right to know all of the facts."

Long proposed that the hearings be conducted by his Subcommittee on Adminstrative Practice and Procedure which the FBI and the Justice Dehas been looking into Federal invasions of privacy, including wiretapping, for the past two years.

He learned on his arrival from Europe yesterday of the dispute that broke into the open during the weekend between Hoover and Kennedy. At issue is whether Kennedy, as Attorney General, authorized the FBI to engage in electronic espionage on a national scale. Hoover claims that he did. Kennedy denies it.

Long said his subcommittee staff received documents from the FBI yesterday which had a "bearing on the subject." But he said he wanted the public testimony of Hoover, Kennedy and other past and present "high officials" of the Justice Department. They would presumably include, Acting Attorney General Ramsey Clark and former Attor-

ney General Nicholas DeB. Katzenbach who is now the Under Secretary of State.

"We have been extremely reluctant in the past," Long said, "to call officials from partment because we did not want to do any possible harm

to national security or the drive on organized crime.

"But now that some of the principal participants have opened up these matters we feel that an on-the-record hearing is necessary."

'Invitations' to Hearings

Long said he hoped the hearings could begin "as soon as practical" after Congress convenes. He said "invitations" as opposed to subpoenas would be issued to prospective witnesses such as Kennedy and Hoover.

quarrel erupted Saturday with to Rep. H. R. Gross (R-Iowa) in which the FBI director said Kennedy had authorized the use electronic agency to "bugs."

Kennedy immediately sued a denial, and insisted that he was unaware of the 'bugging" operation that has jeopardized Justice Depart- Hundley Sheds Light ment prosecutions against
